Sources: U.S. stocks — Standard & Poor's 500 Index, a market capitalization-weighted index based on the results of 500 widely held common stocks; U.S. bonds — Barclays U.S. Aggregate Index. The blend is a weighted mix of 60% S&P 500 and 40% Barclays U.S. Aggregate indexes. The example assumes the portfolio is rebalanced monthly. The indexes are unmanaged and, therefore, have no expenses; their results include reinvested distributions. Investors cannot invest directly in an index. Bond ratings, which typically range from AAA/Aaa (highest) to D (lowest), are assigned by credit rating agencies such as Standard & Poor's, Moody's and/or Fitch, as an indication of an issuer's creditworthiness.

Experienced Portfolio Management

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.
